

1) a)

6.6	8.4	6.6
7.2	7.2	7.2
7.8	6.0	7.8

b) *The total for each row, column and diagonal is 21.6. This is three times smaller than the total for each row, column and diagonal in the magic square that is given.*

Each row, column and diagonal adds up to 64.8 in the given magic square.

2) *There are many calculations and answers possible. For example,*

$$9.63 \div 3 = 3.21 \quad 6.39 \div 3 = 2.13$$

$$3.69 \div 3 = 1.23 \quad 8.12 \div 4 = 2.03$$

$$6.12 \div 6 = 1.02 \quad 9.45 \div 5 = 1.89$$
