

### Reading Challenge:

Using the clues below, can you draw a picture to match?

Yesterday, I saw a steam train.  
The engine at the front was red  
with two orange stripes down it.

It had steam coming out of a  
yellow spout on top.

It had a window and a green roof.

It had six wheels on each side.

Behind the engine was a small  
wooden carriage. It had two  
wheels on each side and was full  
of gold bricks.
