

Year 2 Home Learning Menu

Please complete one task a week

Home Learning should be returned to school on Wednesdays.

One piece of Home Learning will be marked each week.

Some tasks are compulsory and marked with a *

Please continue to read daily and keep up with practising your number bonds using 'Hit the Button'.

[Hit the Button - Quick fire maths practise for 6-11 year olds \(topmarks.co.uk\)](https://www.topmarks.co.uk/Hit-the-Button)

It would also be fab if we could see you using NumBots and Reading Eggs

School Value Challenge *

One of our school values is 'Respect'. Can you create a poster showing what this value means to you - we will try and display as many as we can!

Writing Challenge*

Look out of your window. Can you have a go at writing some sentences to describe what you can see? Hear? Try to be as descriptive as possible. Think about colours, smells, sounds.

Extra Challenge: Can you use a conjunction to join 2 sentences together? Eg. And, so, but, or because

Maths Challenge *

Can you create a quiz for friend to help them to practise their number bonds to 10!

Don't forget to include an answer sheet!

Extra Challenge:

Try it with your number bonds to 20 or 100!

Science Challenge:

In Year 1 you learnt the names of different parts of a plant. We would like you to refresh your memory by drawing and labelling a flower. Some labels to include are petal, leaf, stem, roots and pollen.

Extra Challenge: Can you write a sentence explaining the function of one of these parts.

Art Challenge:

This half term we are going to be drawing buildings. We would like you to have a practice before our lesson or wait until you have been taught some more skills and then have a go. You could sketch your home from the outside or why not sketch a famous building that your friends could guess. Top tip - Start with the shape of the building before adding any detail.

RE Challenge:

In RE this half term, we are thinking about how Christians find out what God is like.

Choose someone you admire (a family member, friend, teacher, sportsperson, or character from a book/film). Then write or draw 3 things they say or do.

What does this tell you about them? **They are...**

Extra Challenge: How can we learn what someone is like without meeting them?

Geography Challenge:

In Geography this half term we are going to be learning about our world. We would like you to do some research about a country you have been to or would like to go. You can choose how you present your research. E.g a booklet, poster or fact file. Include things like major cities, population, continent, flag, landmarks.

PE Challenge

As a school we know the importance of keeping fit and healthy! We would like you to try one of these activities with your friends and family. If you are feeling energetic you might like to complete more than one! Record in your home learning books which one/s you did.

- Exercise with your family - e.g, go on a walk, bike ride, ice skating, swimming.

- Create an obstacle course - how quickly can you complete it?

- Make your own orienteering course for your family to solve.

Computing

'IT around us' is our topic in Year 2 this half term. We would like you to think about what Information technology you can see at home, school and when you're out and about (e.g at the shops). You could make a list of the IT you find, draw pictures and label them or take some photographs. This is one way you could set it out..
